Forecast for Friday 30 Aug 2024

Weather: Any early mist and fog will quickly burn away to give a fine day with plenty of sunny spells. Staying dry throughout, with light winds.

Chance of cloud-free hill tops above 600m: 95% for most of the day.

Low cloud and visibility: Mediocre or poor visibilities in any valley fog while the summits stay clear, with good visibilities across the Park from the top. Fog will quickly clear leaving a fine day with scattered fair weather clouds above the highest hills throughout. Excellent visibility with distant hills clearly visible by mid to late morning.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

A great day for hill walking once any valley fog has cleared. Sun protection is advised and appropriate layers should be carried as still likely to feel cool on summits.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
02:00 on Fri 30 Aug 2024	0.2mm	2.8mm	6mm

Forecast for Saturday 31 Aug 2024

Weather: Early morning mist or fog patches will dissipate quickly as the sun rises, leaving another fine and dry start with lengthy sunshine through the morning. Sunshine turning hazy through the afternoon with cloud increasing from the south. A chance of a few showers, but confidence remains low.

Maximum wind: Easterly 15-20mph gusting 30 mph.

Chance of cloud-free hill tops 600m: 90% through much of the day.

Low cloud and visibility: Some mist and fog patches possible within valleys and across upslopes for a time during the early hours. These will dissipate quickly, with cloud then above the summits. Very good visibility.

Temperature: **Valleys:** Plus 13 Celsius rising to plus 22 Celsius.
At 600m: Plus 8 Celsius rising to plus 16 Celsius.
Freezing level: Above summits.
